Survey Control Information Management System (SCIMS), Survey Marks and Board of Surveying and Spatial Information (BOSSI) fee changes from 1 July 2011

Land and Property Information, a division of the Department of Finance and Services is officially registered in the Australian Business Register and also registered for GST. Its ABN is 84 104 377 806.

Following the commencement of the *Surveying and Spatial Information Amendment (Fees and Deposits) Regulation 2011* on 1 July 2011, fees for some SCIMS products and services delivered by LPI will increase, as will fees for services provided by BOSSI. Fee increases are in line with movement in the Consumer Price Index. Details are set out in the attached table.

SCIMS

SCIMS contains coordinates and related information for control survey marks established under the direction of the Surveyor General and is maintained for the purposes of cadastral boundary definition, engineering surveys, mapping and other spatial applications. Customers are encouraged to access SCIMS products online where they are available at lower rates.

Control Survey Mark Fittings

Control Survey Marks are prescribed by Clause 27 and Schedule 4 of the *Surveying and Spatial Information Regulation 2006* and provide the basic framework for all types of surveys to be brought onto a common network, the State Control Survey. A control mark is a stable and durable mark of a permanent nature that is uniquely identified by a combination of letters and numbers. Control survey mark fittings are available through a state wide network of organisations.

Board of Surveying and Spatial Information (BOSSI)

The Board of Surveying and Spatial Information is constituted under the *Surveying and Spatial Information Act 2002* to provide for the registration of land and mining surveyors, to regulate the making of surveys and to advise the Minister on spatial information. Related fees are set out in Schedule 6 of the *Surveying and Spatial Information Regulation 2006*.
