

Old System conversion or removal of a caution by an official search

LAND
REGISTRY
SERVICES

Info Sheet

www.nswlrs.com.au

February 2018

An official search of the Old System Deeds Register is one undertaken by qualified NSW Land Registry Services (NSW LRS) staff which will, wherever possible, extend to a good root of title sufficient to prove uninterrupted ownership. The official search can be used as the basis for issue of:

- a Limited title
- a full Torrens title
- the removal of a caution from an existing Qualified Torrens title

This method of title conversion can provide an alternative to conversion by primary application.

The conversion of Old System title to fully guaranteed Torrens title or the removal of a caution is complex and time-consuming. Official searches will be completed (as far as possible) on a first-come first-served basis, the Registrar General accepts no responsibility for any delays.

Possession excluded

An official search cannot be used where ownership is based on possession, or if there is evidence of adverse occupation. For example:

- where the title has a Caution under Section 28J (1b)
- the plan or identification survey indicates that the land may be adversely occupied
- the official search raises doubts about the owner's title

In these cases a primary application should be used.

To request an official search

Complete and lodge the attached forms with NSW Land Registry Services:

- Application for official search
- the statutory declaration confirming ownership; and
- consent of mortgagee if necessary

In person at:

1 Prince Albert Road
Queens Square Sydney NSW 2000

Or via post to:

GPO Box 15
Sydney NSW 2001

Where the search involves party walls additional search fees will apply as the search will be extended to confirm the uninterrupted enjoyment of that right.

An undertaking to pay all fees incurred by the search is incorporated in the application form and must be completed.

A letter detailing the result, the fees and other requirements will be sent on completion of the search.

Using an official search as the basis for Old System title conversion

An official search may be used to convert Old System land to a limited Torrens Title.

If the search is satisfactory, a departmental plan will be drawn to show the deed boundaries and a title will issue with a limitation regarding the boundaries.

If lodged in conjunction with a plan of delimitation and if the search and plan investigation are satisfactory it may be possible to issue a full Torrens title see Removal of limitation and exemptions from new plans.

Removing a caution from a qualified Torrens title

The application for official search form may also be used to request removal of a caution recorded on a qualified Torrens title. In addition to the lodgment of the application forms, if the title has no limitation the application may require:

- a survey report and identification survey

prepared by a surveyor that specifies the age and nature of all buildings, fences and occupations existing on the land and their relationship to the parcel boundaries.

For further information please contact the Manager, Old System Plans E:

plan-info@nswlrs.com.au.

See Exemptions from new plans of survey.

Lodgment of a cancellation

Following completion of a satisfactory search, the applicant will be asked to lodge:

- the qualified Torrens title and
- a Cancellation of caution (form 17CC) with
 - *part (c) of a statutory declaration at (E) completed on the manual form or
 - *item 28MC [based on Official Search] of the statutory declaration at (E) complete on the interactive form.

A standard lodgment fee is charged.

For further information on removal of cautions generally refer to paragraph 485.300 in *Land Titles Office Practice* by Baalman and Wells.

Removing a limitation notification from title

The applicant may do one of the following to remove a limitation notification from a Certificate of Title.

1. Lodge a new deposited plan of survey at the same time as the official search.

2. Apply for an exemption.

Exemptions from new plans of survey

Subject to the written approval of the Manager, Old System Plans NSW LRS, a new plan of survey is not required where the subject parcel is a lot in:

- a registered deposited plan of survey made within 12 years of the date of lodgment or the land is surrounded by registered deposited plans of survey made within 12 years of the date of lodgment, there must be no conflict between the surveys represented in these plans
- a registered deposited plan of survey more than 12 years old and evidence is furnished that the land and adjoining lands are vacant and unfenced
- a registered deposited plan of survey more than 12 years old, the land is fenced and the consents of all adjoining owners to the plan and the position of the occupations/fencing shown thereon are furnished
- a registered compiled deposited plan based on a prior registered deposited plan of survey made within 12 years from the date of lodgment
- a registered compiled deposited plan and is surrounded by registered deposited plans of survey made within 12 years of the date of lodgment, there must be no conflict between the surveys represented in these plans.
